Keep Your Account Safe

Add another authentication method.

SMS >

Google Authenticator or similar >

Customer Portal - Authentication

To 'Keep Your Account Safe' you must choose SMS/Mobile Number Authentication or use an Authenticator App such as [Google](#) or [Microsoft](#).

SMS/Text Message Authentication (Recommended)

Using SMS Authentication means that at every login attempt to the Customer Portal we will send a 6-digit code to the mobile number provided to "Verify your Identity". **This is the quickest and easiest way.**

- This is preset to an Irish contact number. If you have a mobile phone number outside of Ireland please choose the correct country of origin.
- Enter the mobile phone number you wish to receive login authenticator codes to and click continue.
- A Verification Code will be sent by text message to the chosen mobile phone number. Use this code to 'Verify Your Identity' and Continue.
- You can now login to your account and every time you login going forward you will receive an SMS/text message with a validation code to verify it's you.

If you incorrectly entered the mobile number, please call us on [01 553 4040](tel:015534040). An agent will remove the number you entered during signup and on next login you will be prompted to enter a new correct mobile number.

Authenticator App

- If you choose the Authenticator App method please download either the [Microsoft](#) or [Google](#) app.
- Use the RedClick Code to manually add it to your chosen authenticator app or click 'Scan QR Code' to add.
- Once you have successfully added RedClick (which will appear as 'customers') to your chosen Authenticator App it will generate a new 'One Time code (OTP)' for you to use to 'Verify Your Identity' at login every time.

If you do not receive the 'Reset Password' email this means you may not be registered so please Register/Sign Up. Any queries [contact us](#).

STEP 2:

You will be prompted to "Verify Your Identity"

- If you chose **SMS Authentication**, we will text a 6-digit verification code to the mobile number you registered your account with. Enter this 6-digit verification code and click 'Continue'

Didn't receive your verification code via SMS? click 'Resend Code'

- If you chose the **Google or Microsoft Authenticator App**, simply go to your app, get the 6-digit one time password code, enter the code and click 'Continue'.
